## Message from Principal

Dear Students, Parents, and Guardians,

It is my pleasure and privilege to extend my best wishes to our students and their guardians for placing their trust in our college. We are committed to upholding that trust and strive to make our institution the premier engineering college in the near future.

Our mission includes effective academic, research, consultancy, and training initiatives. We recently signed an MoU with Mahalaxmi Municipality, making us the first engineering college to collaborate with a local government under the new constitution. This partnership will provide valuable practical exposure to our students.

Additionally, we are working to establish connections with esteemed universities abroad, further enhancing our academic environment. Our newly established Research, Consultancy, and Training Unit will significantly contribute to this effort.

Thank you for your continued support.

Warm Regards,

**Prof. Dr. Jiba Raj Pokharel**

Kantipur International College (KIC), established in 2000 AD and affiliated with Purbanchal University, provides quality education from two convenient locations in the Kathmandu Valley: New Baneshwor, Kathmandu for Management & Arts, and Gwarko, Lalitpur for Science & Technology. KIC is dedicated to equipping students with the skills and qualifications needed to succeed in diverse professional fields, producing skilled and dedicated professionals for industries ranging from hospitality and banking to engineering and consulting. Our experienced faculty delivers a range of programs, including BHM, BID, BHCM, MHHM, BBA, MBA, BE Civil, B.Arch., MEQ, and MCM, reflecting our commitment to meeting evolving industry needs.

KIC's objective is to empower students for exceptional opportunities through professional guidance, training, and practical studies. Our objective-driven, modular curriculum is taught by qualified professionals using the latest educational techniques, with close student progress monitoring and intensive practical sessions. We emphasize experiential learning, believing that active participation leads to deeper understanding and retention. KIC provides a high-standard learning environment with modern amenities, including well-equipped computer labs, workshops, model bars and restaurants, training kitchens, and libraries. We are proud of our graduates' success in local and global markets, with hospitality management students securing international internships and many graduates holding key positions in prominent businesses.

# Master of Hotel & Hospitality Management

# MHHM

The hospitality industry needs innovative leaders who can guide and flourish the industry forward amidst an ever-evolving set of challenges, from expanding customer segments to emerging trends and brand saturation. The Master of Hotel and Hospitality Management (MHHM) is an intensive four-semester hospitality-focused graduate business management course designed to prepare graduates to face such challenges in a more creative and efficient way. It focuses on those aspiring individuals seeking to achieve their management potential and stand out from the crowd to lead. Like MBA, the MHHM prepares students to be theory-based, action-oriented leaders of executive management teams and entrepreneurial ventures. MHHM graduates are corporate directors, managers, restaurateurs, entrepreneurs, developers, analysts, and consultants of hotels, resorts, restaurants, and spas. The course also provides graduates with the opportunity for a teaching career at recognized hospitality/hotel management and tourism institutions.

# M.Sc. in Construction Management

This course is designed for engineers to be competent in the qualitative construction of necessary infrastructure for the development of the country. Due to the lack of management skills, our construction works have lacked the requisite standard, leading to the production of undesirable construction works.

This course not only focuses on the science but also on mitigating technology of earthquakes. This is done with the offer of Research Methodology, Management, construction safety, and several other such courses. It is a two-year course with 60 credits devoted to several theoretical, elective, and Project Work courses, culminating in the thesis in the last semester. For this, students will be evaluated through seminars, written examinations, and assessments.

## Bachelor of Business Administration

# BBA

Bachelor of Business Administration is a practical-based, full-time management program of Purbanchal University consisting of 120 credit hours. The BBA program spans eight semesters completed over four academic years. Students have the option to specialize in the subject of their choice and undergo intensive internship in the seventh semester.

The objective of the course is to produce globally standardized middle-level managers and entrepreneurs with new insights and high morale to meet the needs of the 21st century.

As BBA is business-focused, the skills needed for business management are imparted during the course. The BBA program aims to provide an active learning environment that fosters and sustains our students' growth in professional competence, broader skills, poise, and values essential for responsible citizens and leaders in the local business community and beyond.

# Bachelor of Interior Design

# BID

Interior Design combines creative, aesthetic, and technical solutions to transform internal spaces. Spanning 6,000 years, it bridges architecture, art, craft, and technology, from ancient caves to modern skyscrapers. As both an art and science, interior design adapts environments to cultural, social, and functional needs, enhancing user satisfaction through thoughtful materials and aesthetics.

The Bachelor of Interior Design (BID) is a four-year program in Nepal, preparing students for careers in the interior design sector, freelance work, or entrepreneurship, with opportunities for advanced studies.

**Bachelor in  
Architecture**

# B.Arch

KIC's Bachelor in Architecture program aims to develop skilled and ethical architects for the nation. Located at Imadol, Lalitpur, KIC offers quality technical education in a serene environment, supported by dedicated faculty, modern classrooms, laboratories, and a well-stocked library.

Architecture involves planning, designing, and constructing spaces that balance functionality, aesthetics, and technology. It requires creative coordination of materials, light, and design, along with scheduling, cost estimation, and construction management. Architects produce essential documentation, including plans and technical specifications, that define the structure and functionality of buildings and systems.

**Bachelor of  
Technology in Artificial Intelligence**

# **B.Tech.AI**

Innovate, Analyze, Transform the future.

The **B.Tech in Artificial Intelligence** is a cutting-edge undergraduate program designed to equip students with the foundational and advanced knowledge needed to thrive in the rapidly evolving AI landscape. The curriculum blends theoretical foundations with hands-on practical training, ensuring students are ready to solve real-world problems through data-driven innovations.

This program follows a project-based learning approach, incorporating internships and industry collaboration to provide exposure to real-time challenges. Beginning with essential courses in Programming, Computer Science, Mathematics, and Statistics, the program builds a strong technical base. As student's progress, they delve deep into core AI domains such as Machine Learning, Neural Networks, Natural Language Processing, Computer Vision, Game Playing, and Intelligent Systems.
